About Boutique Travel Advisors

<https://travelbta.com/>

At Boutique Travel Advisors, we believe luxury travel goes beyond welcome chocolates on pillows & first-class seats. Luxury travel can be subjective. To us, the definition of luxury travel embodies having the privilege to explore & experience the infinitely possible wonderments the world has to offer when we decide to mindfully venture outside of our comfort zone in our home environment.

From booking bespoke safaris in South Africa, serenely scenic river cruises through France's waterways, to private wine (+ pasta) tastings on the Amalfi Coast... BTA strives to curate each personalized itinerary with credible expertise, dedicated service & the whole-hearted intention for each traveler to exceed their travel goals and expectations while on the adventure of a lifetime.

BTA is proudly a women-owned & run company. Co-owners and luxury travel curators, Janet Semenova and Angie Rice, use a thorough 5-step process to seamlessly design & tailor YOUR travel experience: explore, imagine, build, journey, reflect.

Your BTA travel itinerary is more than a document of scheduled flights, tours, and dinner reservations. It is the motherboard, the holy grail, the backbone of a transformational journey that turns your individual, subjective experiences into heart-warming, thought-provoking, jaw-dropping, life-changing memories that are worthy of being cherished for a lifetime.

Our purpose is to make your travel dreams come true... We are here to make your every step along the way uncomplicated, stress-free, and wildly exciting. All we ask is, **where will your journey take you?**

The Going-to-the-Sun Road was completed in 1932 and is a spectacular 50 mile, paved two-lane highway that bisects the park east and west. It spans the width of Glacier National Park, crossing the Continental Divide at 6,646-foot-high Logan Pass. It passes through almost every type of terrain in the park, from large glacial lakes and cedar forests in the lower valleys to windswept alpine tundra atop the pass. Scenic viewpoints and pullouts line the road, so motorists can stop for extended views and photo opportunities.

The road is well worth traveling in either direction, as the view from one side of the road is much different than from the other. In 1983 Going-To-The-Sun Road was included in the National Register of Historic Places and in 1985 was made a National Historic Civil Engineering Landmark.
