Free Afternoon in Mykonos

Set like gems in the sparkling blue Aegean Sea, each of the Cyclades islands has its own character. For Mykonos, the local culture is a mix of the sacred and the profane. This island is the gateway to the neighboring unoccupied island of Delos, the sacred center of the Cyclades.

With more than a million visitors a year, this 30-sq-mi/80-sq-km island gets busy in high season. For those who don't like crowds, spring and fall are the best times to visit.

If your notion of a Greek island is old ladies in black and fishermen mending their nets by the harbor, Mykonos will be an eye-opener. In fact, it will probably surprise even the experienced traveler. Mykonos has more than 400 churches and chapels, as well as several nude beaches and its share of gay striptease and drag shows. Fashion models strut their stuff, and the nightlife can be as wild as anywhere in the world. Prices are high, too, but the food and shopping are better than almost anywhere else in Greece.

Mykonos Town, the capital, is the center of activity on the island. Don't let its reputation for bacchic behavior discourage you from visiting. Go during the daytime if you want to experience a more traditional side of town. Take time to stroll its warrenlike streets, many of which are no wider than a sidewalk. On each side are smooth, whitewashed cubes whose doors and windows are splashed with bright colors. Bougainvilleas, clematis and geraniums cascade from the wooden balconies.

Be sure to peek inside a few of the red-domed chapels scattered around the island. Most are tiny, peaceful places. There are also several small museums that contain some interesting artifacts.

Outside the capital, the beaches are superb, provided you don't mind sharing them with a few thousand other people. Inland are few trees and lots of rocks, so although it's not the most attractive of islands, it does have character.

MUST SEE OR DO

Sights—The island's landmark windmills, especially to watch the sun set; Little Venice at night (it may not be to everyone's tastes, but it's what Mykonos is about); Panaya Paraportiani, for a glimpse of the sacred amongst the profane; Mykonos Town's winding back streets; a short boat ride to the ancient archaeological site on nearby uninhabited Delos island.

Museums—The Archaeological Museum of Delos; Delos artifacts at the Archaeological Museum of Mykonos; traditional arts and crafts at the Folklore Museum of Mykonos.

Memorable Meals—Tarte tatin at La Maison de Catherine, tiradito and new-style sashimi at Matsuhisa; a contemporary take on Greek tavern fare at Bakalo; organic Greek dishes such as water buffalo meatballs at Nice n Easy on Kalo Livadi beach.

Late Night—The spectacular cliff-top setting and pool overlooking the sea at Cavo Paradiso; club-hopping through Mykonos Town's alleys and Little Venice; after-hours beach parties on Paradise or Super Paradise beaches; enjoying the packed party crowd at the island's beach club venues when world-famous DJs spin.

In Greek mythology, Mykonos was named after its first ruler, Mykonos (Mkovo),^[10] the son or grandson of the god Apollo and a local hero. The island is also said to have been the location of a great battle between Zeus and Titans and where Hercules killed the invincible giants having lured them from the protection of Mount Olympus. According to myth, the large rocks all over the island are said to be the petrified testicles (or, in bowdlerized versions, the entire corpses) of the giants.^[11]

Day 4

9:00 AM

Start Time

Meeting Point

Outside the lobby of the Myconian Imperial Resort and Villas
in Mykonos

You will start your incredible day by reaching the port with your private transfer where the crew is waiting for you to briefly introduce you to the safety measures of your sailing trip. With Kalafatis beach as your starting point, embark on your catamaran and sail to the most sacred islands of the ancient world.

Get your cameras and snap pictures of spectacular natural beauty as you are approaching Delos and Rhenia, the twin islands belonging to the twin ancient gods. Drop anchor on Delos, the birthplace of Apollo and Artemis and let yourselves get enchanted by the impressive ancient ruins of the largest ancient pilgrimage site of Cyclades. Be amazed by the scale of the archaeological site and have the chance to walk on ancient streets as you are passing by some thousands-years-old houses and villas. Continue your journey at the neighboring island of Rhenia and swim at its deep blue refreshing waters. As both of these islands are uninhabited, their coves, bays and beaches are totally untouched making a snorkeling experience irresistible.

While on board, enjoy a variety of freshly made local delicacies sided with mouth-watering wine or locally micro-brewed beer. As time passes by, reach the southern coasts of Mykonos and visit some of the most popular beaches such as Super Paradise and Kalo Livadi from the comfort of your boat, away from the crowds. Finish your day by tasting Greek spirits while returning back to your base.

A day activity that guarantees an experience of a lifetime, your sailing trip around Mykonos is the best thing to do while on the island of the Winds.

Day 5

Free Morning in Mykonos

SIGHTSEEING

The narrow streets of Mykonos Town are one of the main attractions, provided you can visit out of season and see them when they're quiet and pretty. Whitewashed walls and blue doors and windows draped with deep pink bougainvillea make up the archetypal Cycladic scene, which you'll see on many postcards. You may also get a glimpse of one of the pink pelicans of Mykonos. The original, Petros, was caught in a fisherman's net in 1955 and became an island mascot. Visitors congregate in the cafes of Little Venice at the end of the day to watch the spectacular sunset, though the sunset views are actually better from the hill where the windmills sit.

There are a few small museums. The Archaeological Museum, with some finds from Delos, is worth a visit. The Folklore Museum displays Myconian art, ceramics and embroidery. The Aegean Maritime Museum contains some interesting models of ancient sailing vessels. A trip to the neighboring island of Delos is the must-see excursion for those not dedicated to beaches. Try to get there early so you'll have plenty of time to look around the UNESCO World Heritage archaeological site. In town, Panayia Paraportiani is the prettiest of the island's numerous churches.

You will find it near the remains of the castle, at the southwest end of the harbor. The remains of many churches, chapels and shrines dot the island's landscape. According to traditional lore, fishermen who ran into trouble at sea would pray for their lives to be spared, and those who made it back to land built shrines in gratitude. Many of these tiny, private chapels are near the homes of fishermen. Across the island is the only other large town, Ano Mera. It is well worth visiting to get a feel for typical Greek daily life. The Monastery of Panayia Tourlani is near the main square, and it's a charming example of a Greek monastery.

RECREATION

The majority of visitors come to Mykonos to enjoy its fine golden-sand beaches and clean, blue sea. On the bigger beaches you'll find watersports centers offering such activities as scuba diving and surfing. Horseback riding is also an option, with some stables offering early-morning and sunset rides along the beaches or over the countryside.

NIGHTLIFE

Nightlife is why many people go to Mykonos, and to them the wee hours are when the action starts. They spend their days on the beach, sleeping off the fun they had the previous night. Mykonos has the best nightlife in the Greek islands, and Mykonos Town has the best on the island. Behavior can be quite outrageous or simply objectionable, so be warned. Inside certain clubs, you can find drag acts and gay striptease.

If that's not your style, then you may want to get an early night's rest. If that is your style, then hit the harbor area, especially around Platis Gialos, and farther south in Little Venice—a popular spot for watching the sunset, but the party doesn't get going until about 11 pm. Later on, the action moves to out-of-town beach clubs such as Paradise Club and then after-hours Cavo Paradiso, where the party continues till after dawn. Be aware that drinks are expensive on Mykonos. The "in place to sin" changes from season to season, but there are some long-established favorites, such as Caprice, Galleraki and Jackie O, located on the waterside in Little Venice, which are popular venues for sundown cocktails before a rather wilder party mood sets in around midnight.

Exploring Mykonos Tour

1:00 PM

Start Time

Meeting Point

The lobby of the Myconian Imperial Resort and Villas in Mykonos

This is a 4-hour tour on the most popular island in the Cyclades, with an excellent local licensed guide. You will explore the beautiful Chora of Mykonos while learning about the long and fascinating history of the island. In a private vehicle, your guide will drive you to the island hotspots and the must-sees which will provide you with a great orientation of the island and wonderful picture-perfect moments! Visit some of the island's most beautiful beaches.

Day 6

R&R Beach Day

BEACH GUIDE:

ELIA… exotic deep waters and rocky surroundings make this small bay a great alternative for sport aficionados (it's a fabled spot for diving and snorkeling) and true Mykonos insiders who seek impeccable service and comforts without the distraction of loud music (and crowds). Families, couples and celebrities who arrive here by car or by boat are also attracted by the picturesque local restaurants. This is your home beach.

AGIOS SOSTIS… unspoiled, without any tourist amenities, this beach encapsulates the bohemian soul of Mykonos. Frequented by celebrities and nudists, it is famed for its cold waters and laid-back ambience. A popular rustic tavern on the cliff serves up a feast of chargrilled fish and fresh salads. Beware: no reservations, no exceptions!

FOKOS… isolated and remote, with arguably the island's coldest waters, this horseshoe-shaped beach off the beaten track in the north of the island, near the artificial lake of Marathi, remains a pristine site of natural beauty. Lacking umbrellas, sunbeds or any kind of shelter in general, the beach is at its best only on calm summer days. Sample the hearty grilled meats and delicious dishes on offer at the traditional tavern.

FTELIA… taking a right turn at the first crossroads after Chora, the intrepid explorer discovers an ideal surfing destination in a desert-like landscape exposed to strong northern winds. This is where a super-fit crowd along with locals and artists hangs out, either taking on the wilder surf or relaxing on beach cushions
