Embodying the spirit of adventurous travel and cool Nordic design that dwells in its sister property Ion Adventure Hotel, the 18-room Ion City Hotel is the citified version of Ion's original award-winning countryside retreat. Located in the heart of Reykjavik, with access to many shops, cafés, bars, and restaurants, Ion City is housed in a smartly renovated building that retains its original architectural beauty yet is augmented by outside walls featuring a motif inspired by traditional Icelandic weaving. Inside, guests discover luxuriously organic interiors defined by clean lines, Icelandic art, and a palette of gray and white, contrasted by warm-hued wooden floors. Here, a world of gunmetal grays, fine-grained woods, and regional design pieces are bathed in light that spills in through large windows that offer expansive panoramic views of Reykjavik. A stay at Ion City also includes farm-fresh cuisine, a go-to bar for locals, a gym, and a private dining room.

On board the tour boat you will find several outdoor viewing platforms, a large indoor saloon with an on board café where you can buy light refreshments, basic bathroom facilities and a cloak room where you can borrow one of our blankets or overalls on colder days. You can either stay outside in the fresh air but you are also welcome to stay inside the heated lounge and observe the views from within, through our large panoramic windows.

One of our excellent guides will commentate on the sights and views at hand through the intercom system on board and will be available to you and happy to answer any questions you may have throughout the tour.

Summer season (1 April - 31 October) is great for whale watching, as the wildlife in the bay is at its highest peak! This is the time when the Minke whales are at their most abundant, along with White-beaked dolphins, Harbour porpoises and the occasional Humpback whales, giving us the chance to enjoy and understand them in their natural environment.

Day 3

Golden Circle and ATV Adventure

Image credits: Pixabay

Iceland is known for its beautiful, diverse nature and on this tour you can experience some of the highlights of it in just one day: Walk down a crevice formed by the tectonic plates, watch a geyser erupt, see one of Iceland's most beloved waterfalls and photograph a crater lake all from the comfort of your vehicle and expert driver.

This tour gives you the opportunity to experience the rush of driving an ATV across the battered volcanic terrain of Reykjanes peninsula followed with dramatic landscape and fascinating history on the Golden Circle route.

The ATV tour is led by experienced tour leaders who are knowledgeable about the landscape of Reykjanes and capable of finding the best spots for sightseeing and photography opportunities.

The second leg of this tour is the Golden Circle tour where you'll explore some of Iceland's greatest natural and historical landmarks.

Your first stop is Thingvellir national park, where the Icelandic parliament was founded in 930 AD. This is where the Eurasian and North-American tectonic plates meet, having formed a crevice while slowly drifting apart.

After crossing Lyngdalsheiði you get to Gullfoss waterfalls. The name translates to "Golden Waterfall", and the "gold" is the rainbow that forms on sunny days over the waterfall as it cascades down the Hvítá River in two steps.

Finish the tour with a visit to the famous Geysir hot spring area.

Day 4

Super Jeep Landmannalaugar Tour

Take an amazing Super Jeep ride which begins in Reykjavik. Drive to to Þjórsárdalur Valley and stop at Hjálparfoss waterfall, which translates directly into "Helping Falls" in English. The aptly named region comes from when the first Icelandic settlers arrived and would use this fertile region as a place for their horses to graze and rest.

Following Hjálparfoss we set off for the lush farmlands of the lowland region before continuing onwards to the highlands, where we get to explore the magnificent Icelandic wilderness.

On this day Super Jeep ride you will see unforgettable views of gentle rivers on your way to Landmannalaugar, a famous Icelandic natural landmark. We will also stop at the Crater Lake Ljótipollur, formed in 1477 and is now a cobalt-blue deep lake. Before arriving at our main destination, we will also stop at lake Frostastaðavatn.

Landmannalaugar is an area created by distinctive and compelling geological elements, including immense lava fields and the multi-coloured rhyolite mountains. With colors from every shade of the rainbow, the mountains ranges fade from pink to brown and green, with hues of yellow, blue, purple and black in between.

Sushi Social Dinner

Pingholtsstræti 5, 101 Reykjavík, Iceland

Head chef Daniel Cochran Jónsson and head Sushi Chef Lúðvík Þór Leósson

Sushi Social opened at the end of 2011 and has from the start been a hot favorite on the Reykjavik restaurant scene.

Sushi Social offers a deliciously unique take on Icelandic fish and other homegrown ingredients, fusing Iceland's freshest flavors with Japanese, and South American influences.

The Sushi Social menu is created to fully capture and draw from those influences and offers a wide array of great selections, exciting share plates, new style sushi and sashimi, main courses and of course delicious desserts.

We recommend that you order a variety courses to share, a mix of small courses, sushi and main courses, to experience a perfect festival of flavors. To ensure freshness all our sushi and sashimi dishes are hand-made to order. Small courses and sushi dishes are served when ready so they may not arrive at the table at the same time. Sushi Team

If you can't decide what to go for, the Icelandic feast is a perfect solution – six courses form an incredible taste experience that includes the national aperitif 'Brennivin' and an Icelandic Skyr infused with birch for dessert.

If you have any questions regrind our menu don't hesitate to contact us and we will try to help in any way possible.

Day 5

South Coast Wonders & Glacier Hike Private Tour

Today will take you on an awe-inspiring route along Iceland's infamous southern coast, where we will encounter breathtaking waterfalls, impressive glaciers, iconic natural monuments, and incredible vistas. Through the vast grasslands that divide the glacier-covered peaks of Eyjafjallajokull from the ill-tempered waters of the Atlantic, we journey the Ring Road to the Seljalandsfoss and Skogafoss waterfalls taking time to walk behind the former and enjoy panoramic views of the most remote, interior regions of the Icelandic Highlands, where ribbons of ash-colored ice flow from the hillsides.

Some of the most spectacular sights include the magnificent Solheimajokull glacier, majestic basalt columns at Reynisfjara, and strolling along the spirited black-sand beaches of Dyrholaey.

Our professional guides have extensive experience of the region. They will share not only the must see sites but local knowledge, great stories and personal recommendations.

You will also go to Sólheimajökull outlet glacier and do an unforgettable glacier hike.

Snaefellsnes Adventure
